• How we got started

• Our mission

• A few product highlights
• Started in 1992.

• Headquarters and manufacturing facility are in St. Petersburg, FL.

• Systems installed at over 2600 marinas in North America.

• Provided CVA grant assistance to 1000’s of public marinas.

• Our Engineering team designs the optimal system for each marina or dock.

• Our EMP pumps are also used in many industrial applications.
4 Key Components of a World Class Marina
